Service Desk Renewal Plan

Staff rated the current service desk as slow in a recent survey.[1] The renewal aims to cut the first-response time by half[2].

How a request flows

Every request goes through the same three stages. The triage stage is new; it routes each request to the right team at once.[i]

Schedule

Phase	Start	End	Owner
Discovery	March 2	March 20	Product team
Pilot	April 6	May 15	Two branches
Roll-out	June 1	July 31	All branches

Decision needed: approve the pilot budget by February 20.

[i] See the service catalogue, chapter 4, for the full list of request types.

[1] The survey ran from 10 to 24 January and had 412 answers.

[2] Measured as the median time from request to first reply.
