Quarterly Operations Report

Prepared by the Operations Office for the executive committee. All figures are in thousands of US dollars unless stated otherwise.

Summary

Revenue grew in every region during the third quarter, led by the Asia-Pacific office. Operating costs rose more slowly than revenue, so the operating margin improved by two points. Headcount was flat.

Risks

1. **Customer portal** is close to its budget with two milestones left. A change request is under review.
2. **Supplier onboarding** is delayed by a legal review of the new contract template.

3. Currency movements may reduce reported revenue from Europe in the fourth quarter.

Next steps

The committee is asked to approve the revised budget for the customer portal and to note the delays. The next report is due at the end of January.
